

How to Measure

-Measure the cushion width from side to side at the widest part of the cushion.

*Note: Some cushion styles will have a different measurement at one side to the other.

-Measure the Length (Depth) of the cushion at the widest part of the cushion.

*Note: Some cushion styles will have a different measurement at one side to the other.

-Measure the height (thickness) of the pillow, the cushion at its thickest point.

*Tip: Use a folder or the like to help read the measurement from thickest point easier.
